“ While in Virginia during Easter I was terribly saddened to hear that Alec had passed away. I was a classmate of his from Springfield Estates Elementary School through Lee High School. It seemed then that our lives and our friends would forever be, but like so many of us I ventured out and away and out of touch, but I shall always cherish that time and fond memories of school chums like Alec. There is some irony for me in reading that Alec liked to travel to the White Mountains to visit family in Bethlehem, NH, as I visit that picturesque little town every fall-- Upon examination, it seems we find that our lives are still connected in more ways than we may know. Alec was both big in stature and in heart, and my sincerest heartfelt condolences to his parents, sister and brother, and family and friends on the loss of your beloved.

“ Our family lost a very special member. As a cousin who got to know Alec, I can say he will be missed. However, his lively spirit will live on. I am sure he is being welcomed by our other family members who have passed. We love him very much.

“ Word's can't express my feelings at this point. My heart goes out to his wonderful family. This gentle giant was needed elsewhere. They have received a terrific soul.

“ We will always keep the memories of Alec close to our heart. He was a wonderful person and we will miss his humor and quick wit. Alec was always such fun to be with. I will miss the E-Mails, IM Chats, family photos, and in person visits. We often talked about books and he particularly loved Stephen King. I enjoyed talking to Alec about sports. He was so knowledgeable and had tremendous insight. Dan & I are so sad but we will always cherish our fond memories of Alec.
