“ *I trained Chase as a server at Outback in like 2010. Him and Kieron were just two peas in a pod when they started. Since, Chase and I have been distant friends and would run into each other in Springfield or at mutual friends' houses. I'm not claiming to be his best friend, but there was a thing about him that made everyone feel like they were his best friend. It never mattered how long it had been since we talked, he was always over the moon to see an old friend. He was always a sweetheart. And he was always there for me when I needed help.*

To his family, please do let me know if I can do anything to help you, as I'm sure that would be his wish.

“ When Chase was just a little boy and I'm talkin under 10 years old from time to time I'd have occasion to take him out in this hot rodded 66 Falcon I had he used to hold his ears cuz the sound of the exhaust scared him it was too loud but let me tell you what... soon as that kid got a driver's license in his hand every time I turn around both him and whatever Mustang I had the time was always gone.....good times;)

“ I was in love with Chase since we were in diapers, the first boy I ever loved. I remember being at our sitters (Pat Stynchula) with my electronic diary that Chase wanted to play on, i wanted to let him use it because I wanted him to think it was cool; HOWEVER, I was too terrified to let him because I'd have to tel him my password to open it was his name!!! 😳 My goodness I just can't explain the heartache, the world is a different place. I pray when you made it heaven and saw our Father that after your long embrace with Him, Kieron came running up behind him tackling you. Watch over us, you will be so incredibly missed here on earth.

Chase you & Kison were the two guys that always stood out to me. You always had a kind word and a beautiful smile. You had a work ethic like no other(which is hard to find now a days) I pray you've found the Eternal peace you were never afforded here on earth.
Rest Easy my friend!
You'll always have a special place in my heart.
