“ *I, Jan Fisher, (JB Foresters) became acquainted with Bud in the early 90's because of his forest land in Washington State. As his forester it was a joy to work for him. The reason why - he cared about the future of this land and how it could be improved, not just harvesting but planting and pre commercial thinning! When Bud and Jacqueline visited their parcel during a harvesting job we talked about the future of their land and keeping their children and grandchildren involved. Bud was a wonderful engaging guy, always interested in the latest information concerning his forest land. This land is under a forest stewardship plan program which continues today with Bud's ideas. I was able to meet some of his children and grandchildren last year during another harvest, I could feel Bud's happiness in their interest and excitement for this land. Bud, your hopes for the future have come true! I will miss your voice and interesting letters, thank you for picking me to work for you, I will never forget you!*
