“ *Helen spent more than two years at the Mount Vernon Adult Day Care Center. She was a joy and inspiration to all of us. Her smile, easy laugh, and willingness to join in on the fun made those around her happy. Shed played sports, exercised, and cooked with us. She showed us that age is just a number. We miss her deeply and enjoy reminising about special times with her. But it is her everyday presence that that we miss the most ; her smiles and hugs (and the way she never passed a speck on the floor without picking it up). We know that she is an angel among us now and we offer our condolences to her family and all who loved her.*

“ *Helen was much loved at the Mt. Vernon Center. I am a volunteer there and I would hold her hands to keep them warm. She smiled and and always said thank you. She laughed when I called her Helen Begoravich (spelling?). We miss her.*
