“ *Dear Audrey, Accept my heartfelt condolences for the passing away of your mom. She was so dear to you and i thank you so much for the love and care you gave her till her final moment on earth. She ran her race and came to the finish line and she has to go take a rest. She has a better home prepared for her on the other side. All we have now for her are our prayers for eternal rest till we will meet her someday when our own turn comes. It was a joy for me taking care of her for the short period which i could also share my own little love towards her. My the good memories of her and the love you showed her give you much peace in your heart as you remember her all the days to come. Stay blessed and be strong ASENATH*
