“ *Uncle Jimâ€¦ When the Bible mentions about being welcoming and loving to others, it had to mean we should be more like you.*

You always treated my family and me as if we were your own children. I was able to see it and feel it. Wow! Do you know how amazing that is?

Well, youâ€™re not gone, youâ€™re still hereâ€¦ deeper in all our hearts.

*Love you Uncle Jim,
Joseph*

“ *You were always one of my favorite patients to see in the office. Such a kind, happy man. You are gone but not forgotten. May your spirit live on in the lives you touched. We will take care of Ethel for you!*
