“ *Dear Hannah, I am so sorry, I had no idea your sister was failing. I did see the tears in your eyes the other week and being in a hurry to leave I only noted it was something I wanted to talk with you about later. I sensed something was amiss but I didn't know what. I only knew your sister for a short time sharing the room with mom at Carriage Hill. However, I will say you were so very attentive to her that I know despite her hearing loss and other aging issues that she knew how much you loved and cared for her. I truly believe that Love is something that transcends all our physical limitations and disabilities. If there is anything I can do to ease your loss just let me know. With love, Carole and Bertha*
