“ *I did not know Jimmie very long but from the time I met him he was willing to teach me about RC planes. He once volunteered to fix one of my Air plane motors. I will miss him. I am sorry for your loss.*

April 12, 2011 at 12:00 AM

“ *A short condolence and memory on behalf of my friend Jimmie Michael. Knew Jimmie for 26 years beginning 1985. As with many others, met him while flying model radio control airplanes. He was a mechanical genius. We became close friends as well as great debaters. Never met a person that could debate like Jimmie. To be sure, we had many good feisty debates. Loved it all. If you didn't base your argument on logical thoughts and objective facts--you would loose the debate--guaranteed. He was a most honest and honorable person with a gentle soft-spoken voice. Not only was he a friend, but also a confidante and advisor. Will miss him dearly. God blesses my friend in his passing and my sincere condolence to the family. Take care my friend in your new endeavor. Will check with you later for another debate! your friend, dennis ...*

“ Jimmy was a good flying friend who share his vast knowledge of the radio control hobby. He would come to Charles County Field like at 8 am every Saturday all year long and we have shared many snow days and 32 degree days flying planes. More than that he was so enjoyable to be around. Saturday mornings will not be the same with out him. He will be surley missed.

April 11, 2011 at 12:00 AM

“ Our thoughts and prayers are with your family. Let us know if there is anything we can do.

April 11, 2011 at 12:00 AM

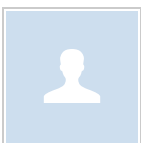

“ Jim will be surly missed at the flying field where he was on Saturday mornings.

April 10, 2011 at 12:00 AM

“ Jimmie and I shared a friendship which I cherished, and I shall miss him very much.

April 10, 2011 at 12:00 AM

“ Fair winds and following seas my friend. May your skies be clear and winds always calm. Watch or us all. Best forever.

April 10, 2011 at 12:00 AM

“ I met Jimmie in 2005; a pretty kool fella who had flown for years. He taught me a few tricks like placing fuel line on the wheel axle to lock the wheel collar which saved the wheel. Jimmie was in the Air Force, as was I; he visited a base in Japan before I was born that I ended up being stationed at in the 80s: Misawa Air Base. He flew on a bird called the A-26 Invader. He showed me his 3 War photos standing next to the real A-26; talk about kool! I loved them so much that I tried to make him forget that I had them. As we exited my truck to go fly, I tried to hide them but it didnt work (smile). Confused years later, I bought a P-38 thinking it was the A-26. Jimmie was my Wing Man! Always there when I needed him and even when I didnt. He, I, and Dennis (The Three Stooges) would discuss a whole bunch of nothing but were good times I could write a book on Jimmie, but Ill close in saying, Jimmie, you became my best friend at the field. I miss you, old man! RIP, my Friend! Mr DJ
