“ *I was very sorry to read of Marty's death. I had the honor of his writing an article in the NYTimes about my leaving the State of New Jersey's Washington Office to go to US EPA (though my mother was upset that he included my salary). We lost touch over the years ... but reading his obituary I was struck about how parallel our lives were: my grandfather and father and uncle were furriers; I graduated Bronx High School of Science in 1963 and NYU Law in 1970. I regret that I didn't get to know Marty personally so that we could have shared our common experiences.*
