“ *Dear Bleiberg family,
As a toxicologist (reviewer) with FDA, I had the great opportunity to work with Dr. Marvin Bleiberg for a few years before he retired from OFAS (CFSAN/FDA) and was inspired by his excellent work as a toxicologist and quiet demeanor. He has touched many hearts and will be missed. May the God of all comfort continue to give you His peace and comfort beyond human understanding at this difficult time (Amen). Hope the sweet memories of your loved one keep you going.*

*Sincerely,
Adejoke O.*

“ *On behalf of the members of the Association of Government Toxicologists (AGT) I would like to express their sincerest condolences to the family of Dr. Marvin J. Bleiberg. He was a very knowledgeable and well-respected toxicology scientist and a long-standing member of AGT. I and numerous members of AGT had the honor of working with Marvin at the Food and Drug Administration in the Center for Food Safety and Applied Nutrition. He will be missed but remembered fondly.*

“ *My Heartfelt Condolences to the Bleiberg family from Chris and Thao Stakenborg*

February 10, 2013 at 12:00 AM

“ *I was sorry to read of the passing of Dr. Bleiberg. I worked with him at the FDA for many years. He was a top-notch toxicology reviewer and a good colleague. He will be missed.*

*Andy Zajac
Director,
Division of Petition Review
Office of Food Additive Safety, FDA*

February 07, 2013 at 12:00 AM

“ *I am sorry to hear about the passing of Marvin Bleiberg. I collaborated with him on numerous petitions during the days when CFSAN was located in SW Washington. I found Marvin to be extremely knowledgeable in the regulatory process. He always seemed to know where to find the latest information. He played an important part in the early history of FDA CFSAN. He will be missed.*

*Thomas F.X. Collins
Retired FDA*

February 06, 2013 at 12:00 AM

“ Dear Bleiberg Family, as an IT Specialist with FDA, I had several conversations with Marvin regarding the database that he and the other scientists used on a regular basis. We had many pleasant conversations, and I was very impressed with his scientific expertise and especially by his kind and unassuming nature. He is greatly missed by all those who worked with him at FDA. Sincerely, Chanah Hollander

February 06, 2013 at 12:00 AM

“ I got to know Marvin during my earliest days at FDA, by which time he was already an accomplished toxicologist. I appreciated not only his ability to pull up needed information on a wide range of toxicology issues and food safety topics, but also his willingness to share this information and knowledge with colleagues across the organization. Marvin was missed when he retired, and I am sure he is still remembered and appreciated by his colleagues as a conscientious scientist and a gentleman.

Alan Rulis
FDA, Retired

“ My husband and I are thinking of your family at this very sad time. Peace to our dear friend and colleague Larry Bleiberg, and to all other family members.

February 05, 2013 at 12:00 AM

“ *Having worked with Marvin at the FDA as a toxicologist, I was always very impressed with his ability to find order in apparent chaos (his office). During one journal club Marvin mentioned that he remembered a paper from the early 70s that covered a topic similar to the one we were discussing. Within a half hour after the meeting was over somehow he found it and brought it to my office (a bit yellow and torn). I've always marveled at this, and never questioned that somehow the entire history of toxicology resided somewhere in his office. He definitely will be missed.*

February 05, 2013 at 12:00 AM

“ *Dear Bleiberg Family:
It was with great sadness that we heard of Marvin's passing. I knew Marvin from his time at FDA when he was and established toxicology reviewer in the food additives program and I was on new employee. I will be forever grateful for his willingness to engage in conversation and to pass on his knowledge and expertise. Marvin clearly had a strong scientific curiosity which was evidenced by his ability to keep up with the latest research publications on topics he was working on. Rest assured that his spirit lives on at FDA. He was a wonderful colleague and an accomplished civil servant.*

*Dennis Keefe
Director,
Office of Food Additive Safety
CFSAN/FDA*
