“ *Dated him in High School, Edison. Went to class reunion and saw on the board he had passed. Not sure since it has been so long and I am just signing this that anyone will see it but wanted to send a note to say he is still missed though it has been so many years. He was a great guy. “ *Paul, I am so very sorry that I just learned of your son's death. Angela called me this past weekend, and I was shocked to hear about your loss. She explained that she had been in the hospital and was unable to contact me sooner. Please know that you all are in my thoughts and prayers. Hopefully, in time, your fondest memories of love and good times will ease the pain no parent should ever have to endure. With sincere sympathy, Sharon (Carver) Mohn*

“ I had the pleasure of working with Paul when I managed the NSF computer support contract. Paul was always upbeat, friendly, and professional. I was much saddened learning of his untimely death. My condolences to his family of whom he spoke often. It was a pleasure having Paul on my team and I am glad to have had the opportunity to know him.

“ I was both shocked and saddened to hear of Paul's passing. I extend my deepest condolences to his family and friends. Paul and I worked together at NSF and I can't begin to count the number of times he made me laugh! I cherish those memories. He was a good guy with a big heart and a great sense of humor. He touched a number of lives and will be greatly missed by many but never forgotten!

“ We are so sorry for your loss. Paul will always have a special place in our hearts for everything he had done and all the joy he brought to the lives of my sons. He coached both my sons, Donnie and Wesley, in little league, and it was easy to see he genuinely cared about the boys. He will always be remembered with fondness and respect, and will truly be missed.

“ It's with great sadness that I heard about Paul's death. My deepest condolences to his whole family and friends.
Paul was my manager at NSF and I could not have asked for a better human being to work for. I was touched by his understanding of issues, personal and professional, that I brought to his doorstep. I will forever be grateful to him for letting me work remotely so that I could be with my daughter when she had major surgery. Little things make people great human beings, and this is one illustration of how good of a human being Paul was.
May God bless his soul. I know that the angels have made a special place for Paul in heaven.
Rest In Peace Paul!

“ You are in my heart, dear Angela, as you go through your unbearable loss. I am still online trying to find your address and phone number, to no avail, but Christina is also looking for me. She called after learning of Paul via Facebook, which I do not do. How I wish I could be beside you now. You have had to endure what no mother should, and twice. My prayers are with you, and through all the years, you remained in my heart. Paul was always a dear and the most handsome one in the family for sure. May the precious memories he left with you ease your heavy burden now, and sustain you to go on. I love you, Carole

“ My condolences to Paul's family and friends. I am shocked and sadden by the news of Paul's passing. I had the privilege of working with Paul at the National Science Foundation (NSF). Paul managed our Data Center "Operations" initiative. Paul was extremely valuable to NSF as he provided many new and innovative ideas for our computer center. We accomplished a lot and had a lot of fun & laughter along the way. I will always treasure these memories, especially his love of Golf and Watches. AI Charity

“ Dabney & Family:
When a loved one is taken home, all we can do is trust in the Lord. He understands your sorrow, and He will always be there for you. We can never be separated from those we care about because God leaves us with memories to hold and cherish and a fondness that will never pass away.
You're in the hearts of others who care deeply for you and Paul, people I call friends. I pray that God eases your sorrow and replaces it with fond memories.
