“ *Dear Mother, I hope you get this... I don't remember the date, it was around the time, I had a dream one morning and I woke up.. . It was I and you are walking by a little lake, father was digging to build something in the woods building something near around it. He looked very healthy he was telling jokes ... It was very bright day, lots of sun shine, and trees .. I think after that I search you in online and saw the house was for sell... I so wanted to talk to you and him.. don't know why... I think I left a phone message for you on your new number... I would have come to visit you , but I thought may be you won't be speak to me.. I am still the same but I missed you all.... Hope you and your family can forgive me, I cannot put up in words to say thank you... but, I do say thank you to you and father every single day ... I am sure people all your family and friends must have lots of stories to share.. mine just memories ; my few years knowing you and father is the only Father's love I got in my life... which I only cherish in my heart ... and say Thank you... Please forgive me for calling you mother.... Purba*
