“ *Bob, your such a miracle because of all the things you were able to overcome those last few years. Gods love overcomes all and the Attonement will work for all of us if we just ask him! You are an example of his love and forgiveness. I am proud to know you and I will miss you very much especially all the fun we had together working on my house. Your funeral was beautiful and touching and just how you wanted. I was so glad to meet your family and see the love they still have for you. I know they will miss you and I express my sympathy to them all. So, I will hold you in my heart untill I see you on the other side. With love Sandy*
