“ *I was one of Dr. Goldblatt's first patients in 1962. He was a wonderful doctor to me, so I took my own three children to be patients until he retired. Dr. Goldblatt was one of the finest people I've ever known, and I will never, ever, forget his kindness and compassion. I was never afraid to go to the doctor because of him. He made such a great impression on me. I lost touch a few years ago and am only now finding out about his passing. There are some people who touch your life in a way that is hard to explain. He was one of those people. A TRULY kind and caring soul. God bless and THANK YOU!*

“ *I just learned of Dr. Goldblatt's passing and would like to send my sympathy to his family. My three children were patients from 1974 until Dr. Goldblatt's stroke. I will be forever grateful to Dr. Goldblatt for being the absolute best pediatrician in this world. What an intelligent, kind, caring Prince of a man. No question was too small , he saw my children late at night and even on weekends. No other doctor would see 3 children and only charge for one office visit. If I were asked to choose one person in my lifetime who made a difference to my family and was the ultimate role model, it would be Dr. Goldblatt. May he rest in peace. Linda Musgrave, Ron, Amy, and Brandt Oak Hill, Va.*

“ I only recently learned of Dr. Goldblatt's passing. My sister and I were both patients of his until we were old enough to go to "adult" doctors. I have only vague memories of his wonderful care, but my mother tells me how helpful and caring he was when I was very sick as an infant. When our first son was born in 2008, I told my wife that if Dr. Goldblatt was still practicing, there would be no doubt as to who his pediatrician would be. The world is a little less bright without Dr. Goldblatt.

“ Our children, Craig and Andrea, were fortunate enough to be patients of Dr. Goldblatt's even after we moved from Alexandria to Centreville. He was such a kind, gentle and reassuring gentleman, not just to the children, but to their young parents as well. Our hearts go out to his large family and hope that knowing the number of lives he touched and healed, and the number of hands he held with such caring, will bring some healing to his own family in this sad time. With much love.....

March 19, 2011 at 12:00 AM

“ My family was saddened to learn of Dr. Goldblatt's passing. Dr. Goldblatt was my children's wonderful pediatrician. Besides being an outstanding doctor, he was kind, smart and always available. I remember when my daughter was around 11, she had developed a very annoying and constant cough, that clearly was not biologically based. For several weeks, this habit caused lots of tension (and arguments!) at the dinner table, in stores, at school, at movies, etc. Totally frustrated, I took her to see Dr. Goldblatt and he, in his usual calm and gentle manner, examined her, put on a worried face and said that he was very concerned because he was afraid that she was damaging her throat/voice and would have to prescribe some heavy/duty medication. She never coughed again. My sincere condolences to his family, Jane Starr, Michael Starr, Kim Starr and Bryan Starr

“ Dr. Goldblatt was my pediatrician growing up, and furthermore, our families were very close friends. I'll always remember him as my first doctor, and that fact spoiled me in many ways because no physician I've had as an adult has ever compared to this gentle and trustworthy man. They just don't make docs like this one anymore. One of my earliest memories is getting a shot when I was five. Just like any kid, I was scared to death. Time stopped completely, and I froze in the exam room in fear. He was so calm and easygoing that I didn't even feel the needle go into my shoulder. I'll miss him greatly.

“ Dr. Goldblatt was my pediatrician from birth to 18. He was so sweet and kind. Sending healing thoughts to his family from Colorado.
